

STORED PRODUCT PEST TREATMENT CLIENT PREPARATION FORM

In order for our company to provide the most effective service possible, we ask that before our arrival you review and complete all the necessary preparations listed below. The following steps will ensure that your Technician is able to provide an effective and safe treatment.

HOW TO PREPARE FOR THE SERVICE

KITCHEN

- Empty out all upper and lower cupboards
- Empty all your drawers of cutlery, towels, etc
- Clean and clear off all your counter tops
- Remove all dishes, pots, pans, cans, boxes, food, etc
- Ensure to keep all removed items within the kitchen area, i.e.: on kitchen table
- All dried food products should be inspected for infestation. Infested foods should be disposed of or placed in a freezer for at least one week. Foods not infested should be placed in plastic containers with tight-fittings lids.
- Notify the Technician of any found infested dried food items and also pet food

WHAT YOU CAN EXPECT FROM THE TREATMENT

Your Technician will be using residual sprays and or aerosol insecticides that are strategically placed at sites of insect activity. Moth traps may also be used for monitoring of activity. All treatments will be made with your safety in mind to ensure your health.

AFTER THE TREATMENT

Place shelf paper on all shelves before replacing cupboard contents

- DO NOT use other pest control chemicals (powders or sprays) or cleaning products anywhere near treatment area, as this will decrease or eliminate the effectiveness.
- Keeping all foods in tightly sealed containers, cleaning up spills as they occur, removing trash on a regular basis, etc.

REMINDER

It is necessary for you and your pets to leave your home for 4 hours once the treatment begins.

Fish aquariums maybe left onsite, however they should be covered and air filters must be disconnected. Persons with underlying health conditions should consult their family physician where they have concerns regarding re-entry time. Upon re-entry, please open windows for 20 min to properly ventilate the treated rooms.

Your Technician...

- Receives on-going training in their branches and at Abell University on-line
- Audited regularly by the industry's most recognized Quality Assurance Team
- Fully Insured
- Follows Quality Pro standards
